

Exercise 1.3 – Lets go to Barcelona – Create a Story Map

Creating a web application using an ESRI Story Telling template

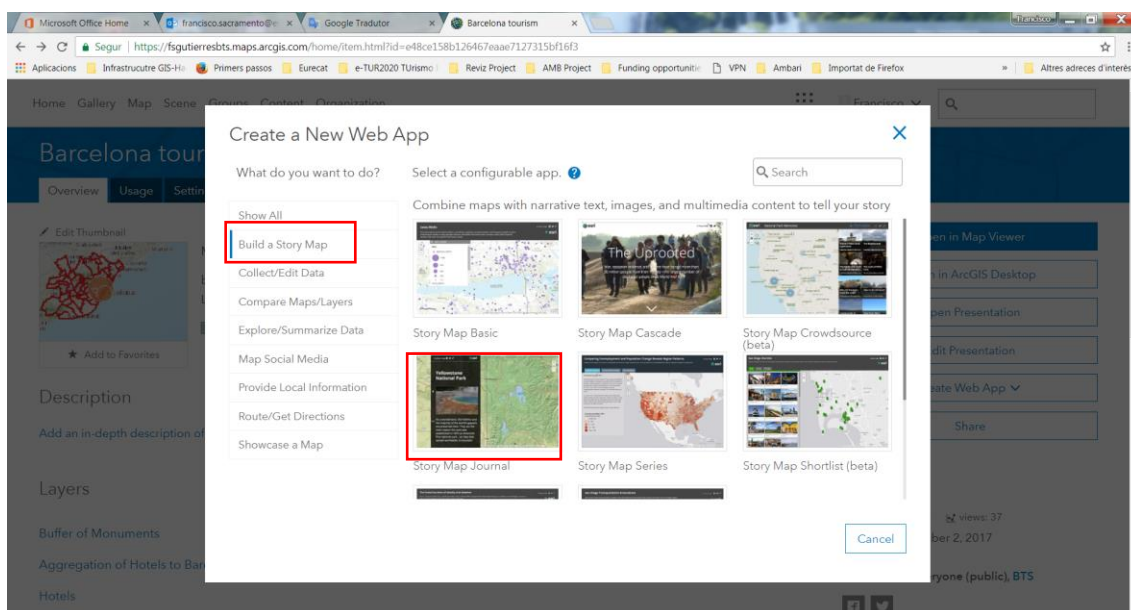

1. Open the web map ("Barcelona tourism") created in Exercise 1.
2. Access to "My Content" tab. Click on the button "Create Web App".

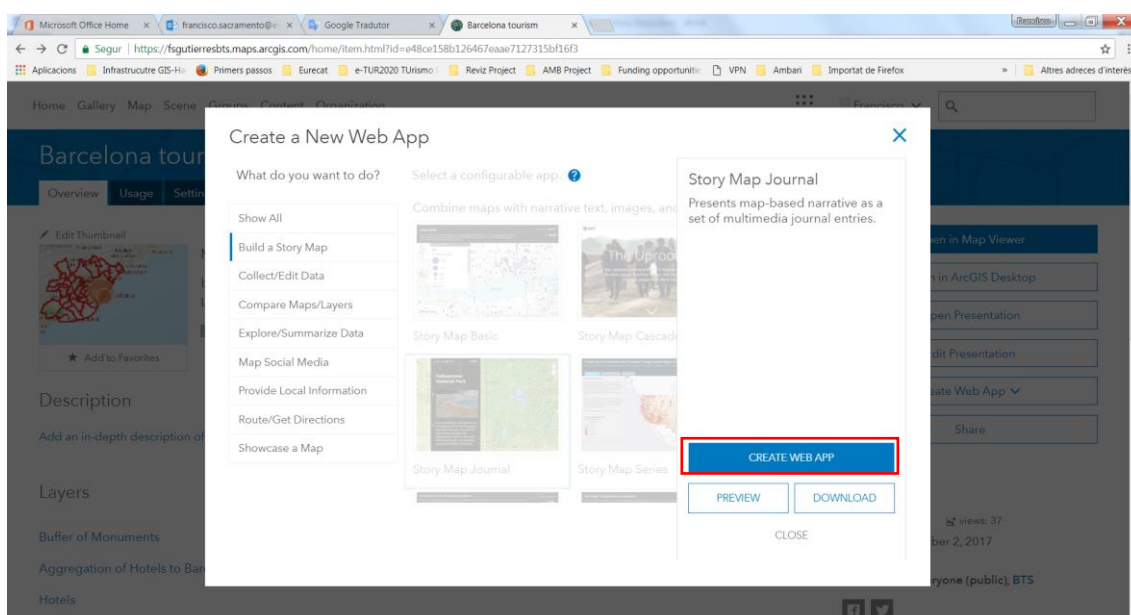

3. Click on the button "Using a Template".

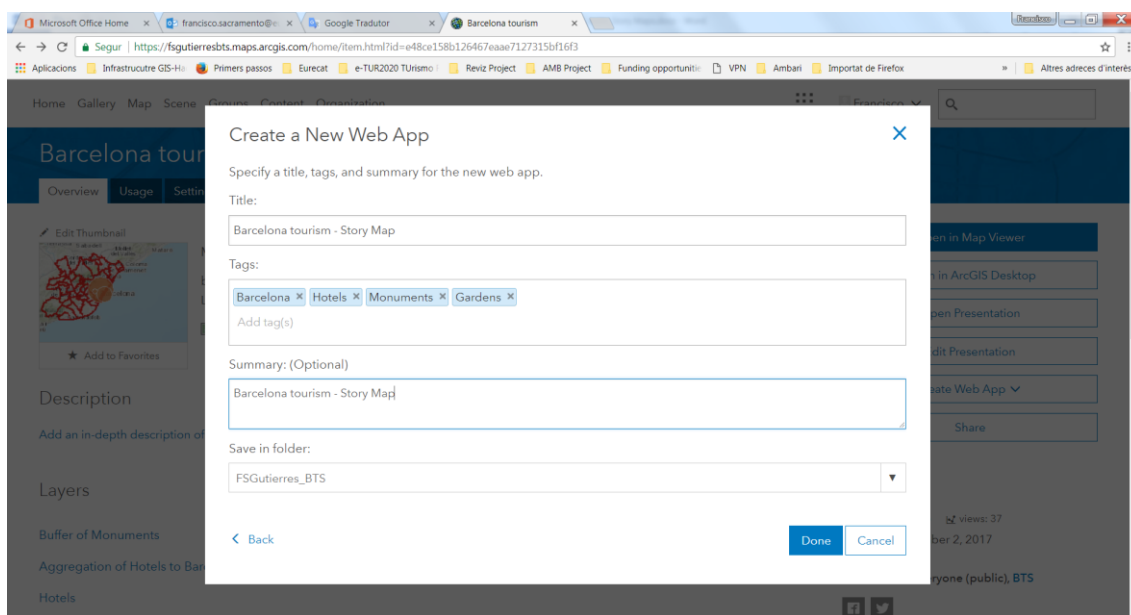

4. Select the option "Build a Story Map" and use the template "Story Map Journal".

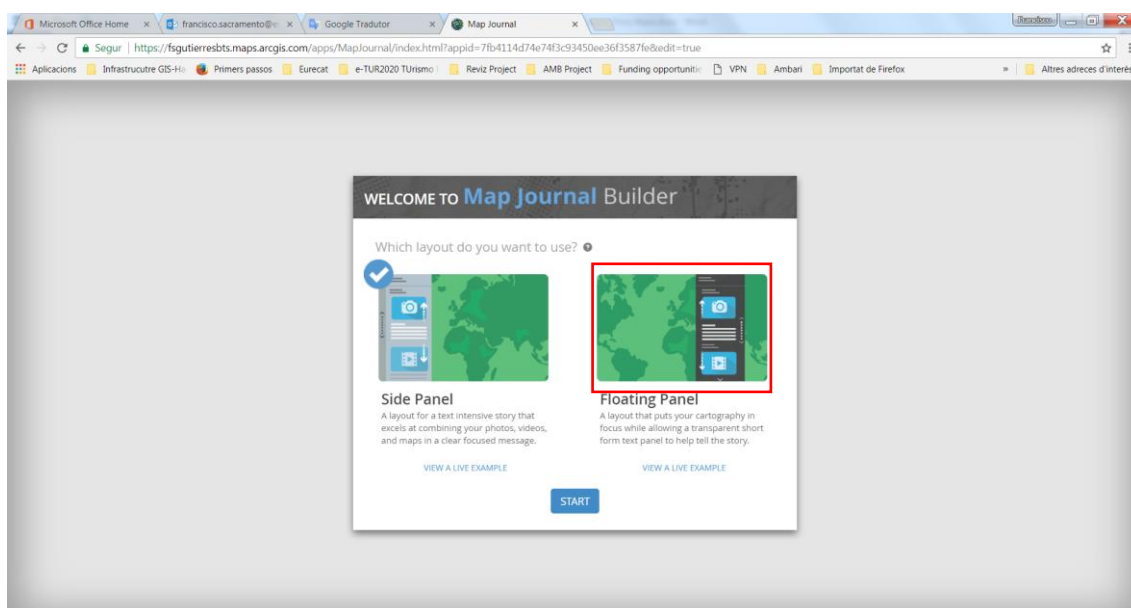

5. Click on “Create Web App”. Fill in the fields for the application name, descriptive summary, and associated tags, and click “Done”.

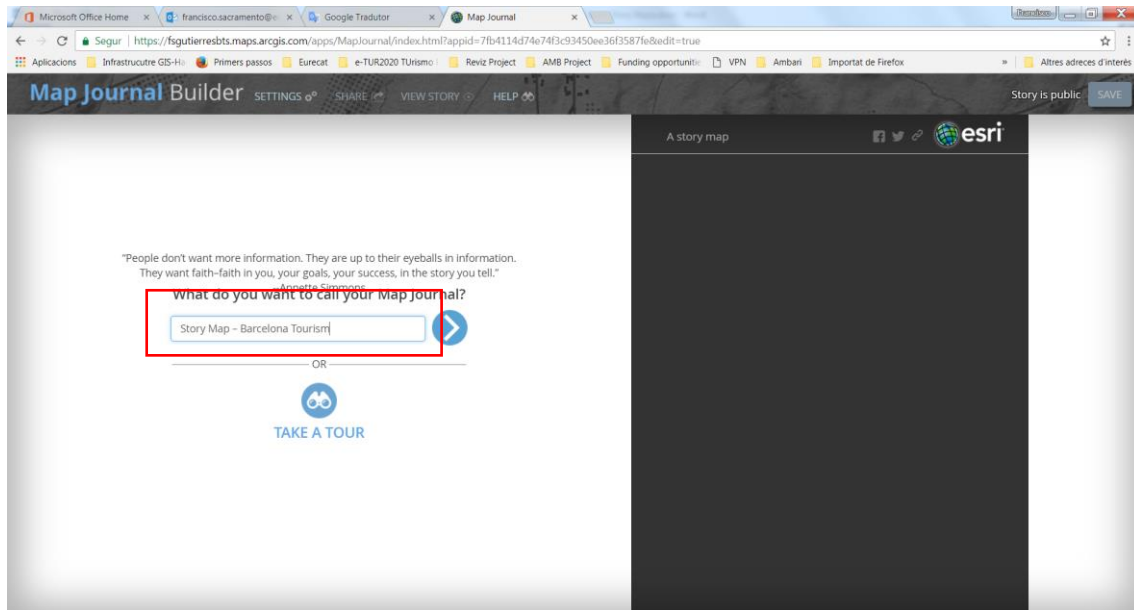

- Title: “Barcelona tourism - Story map”.
- Tags: “Barcelona; Hotels; Monuments; Gardens”.
- Summary: “Barcelona tourism - Story map”.

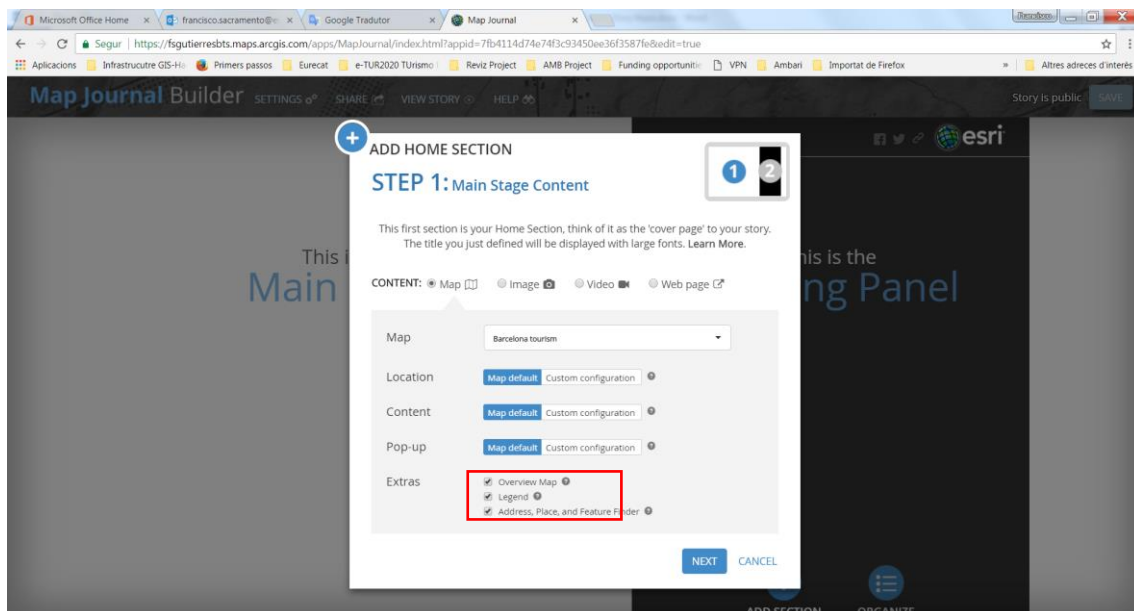

6. Click on “Floating Panel”.

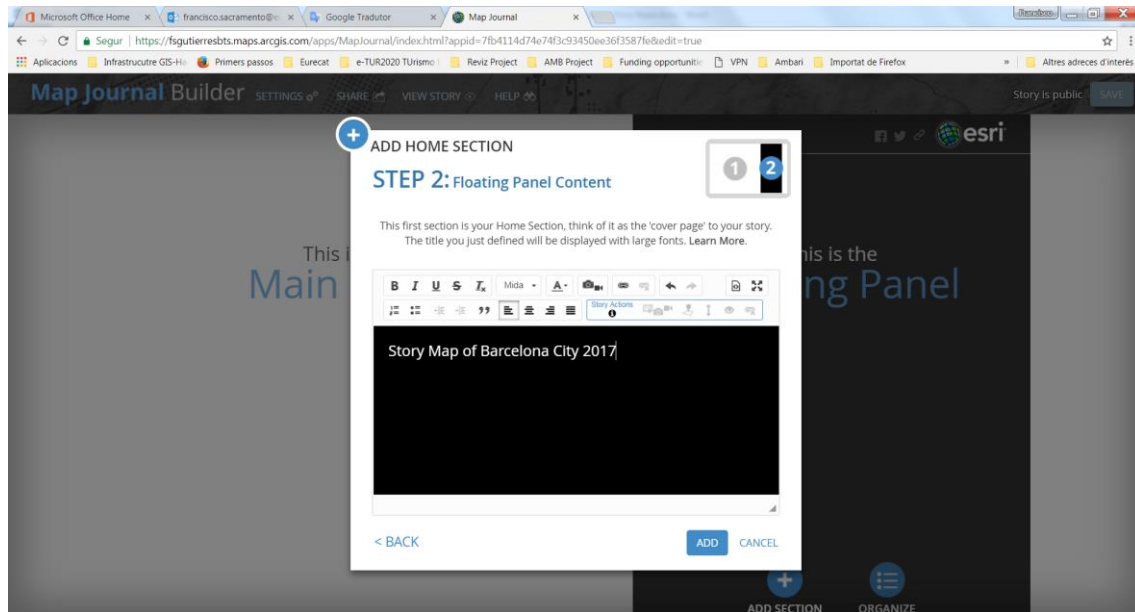

7. Add the text: "Story Map – Barcelona Tourism".

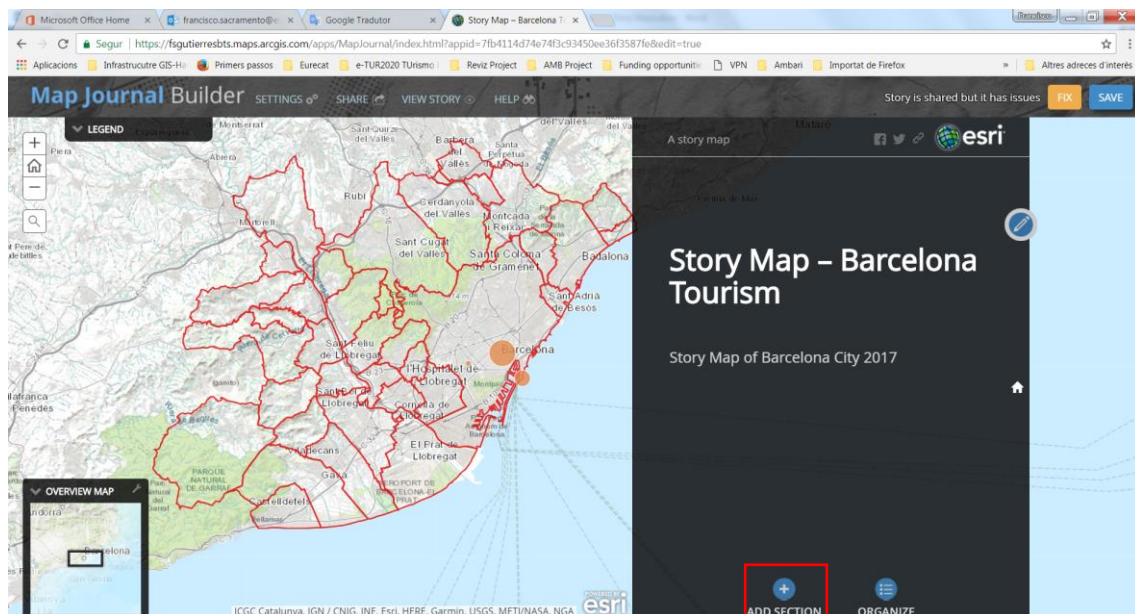

8. In Step 1 select the option "Map" and select the web map created previously ("Barcelona tourism"). Select all the "Extras".

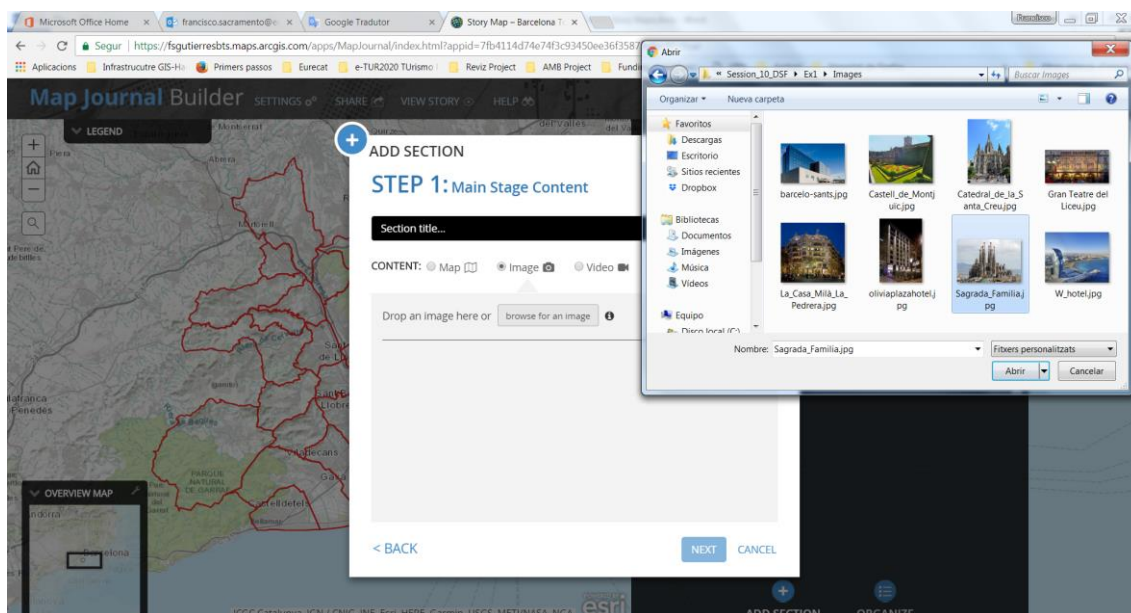

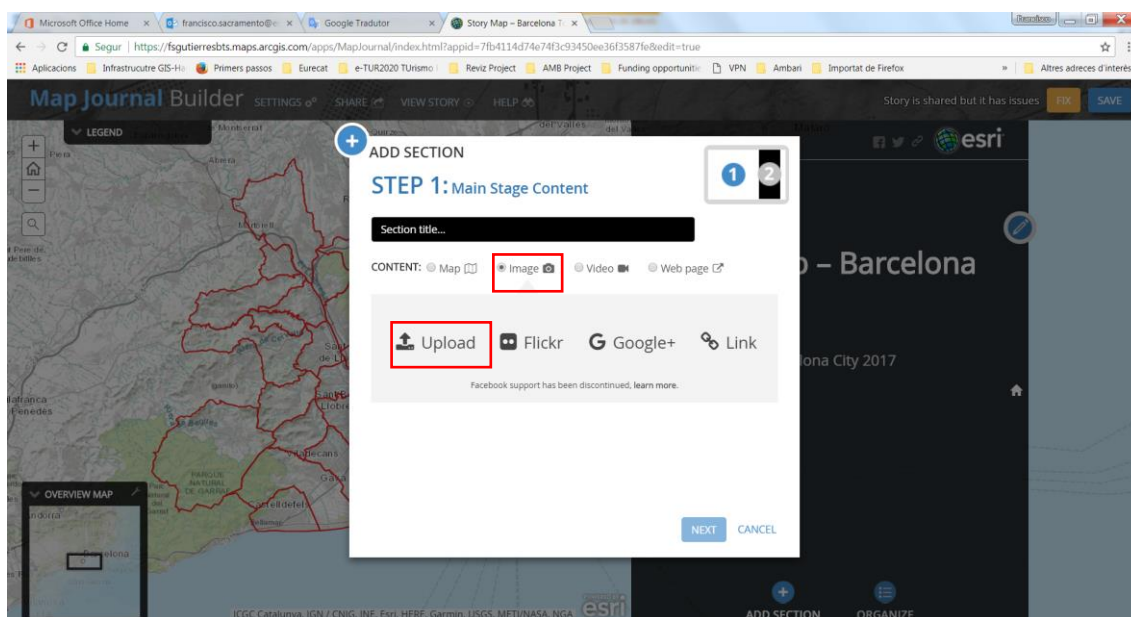

9. In Step 2 insert the text: "Story Map of Barcelona City 2017".

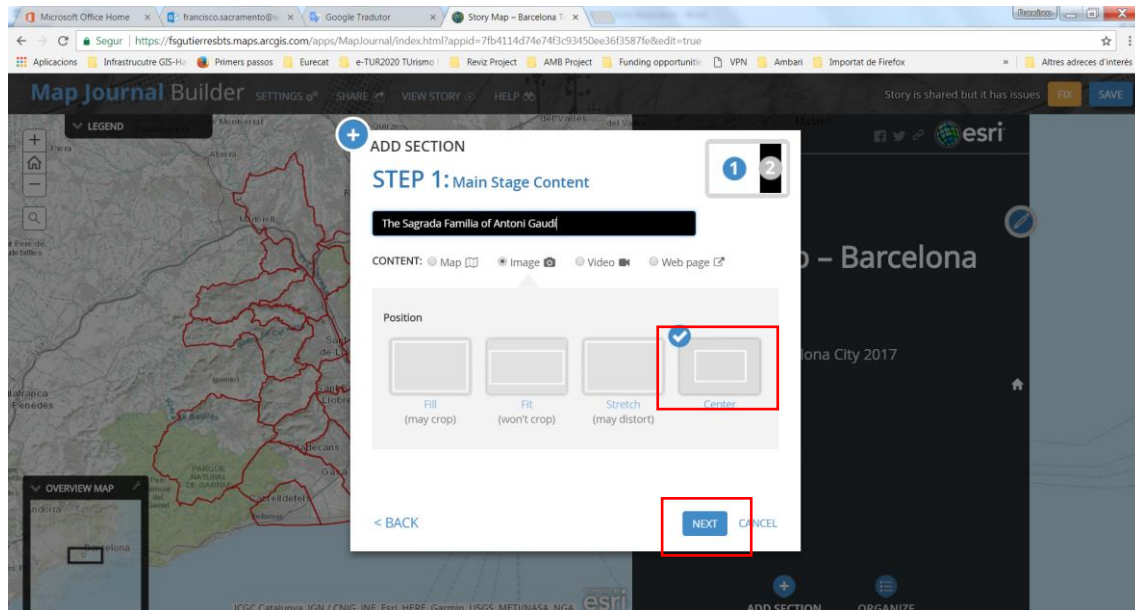

10. Choose “Add Section”.

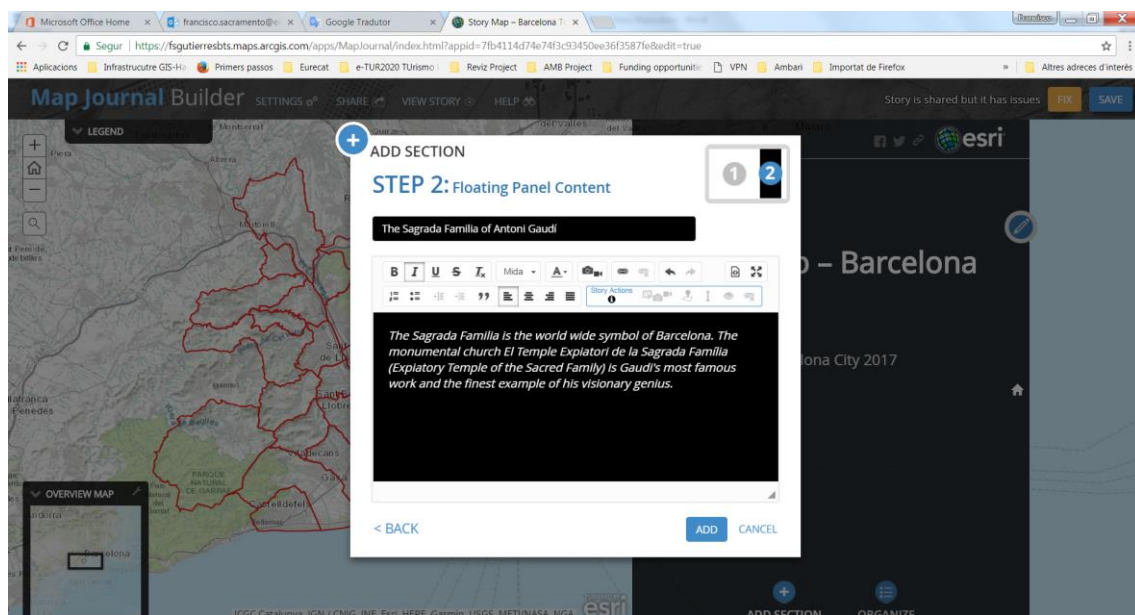

11. In Step 1 select the option “Image” and “Upload”. Browse to the "Sagrada_Familia .jpg" in the “\Session_10_DSF\Ex1 \Images” folder. Insert the text “The Sagrada Familia of Antoni Gaudí”.

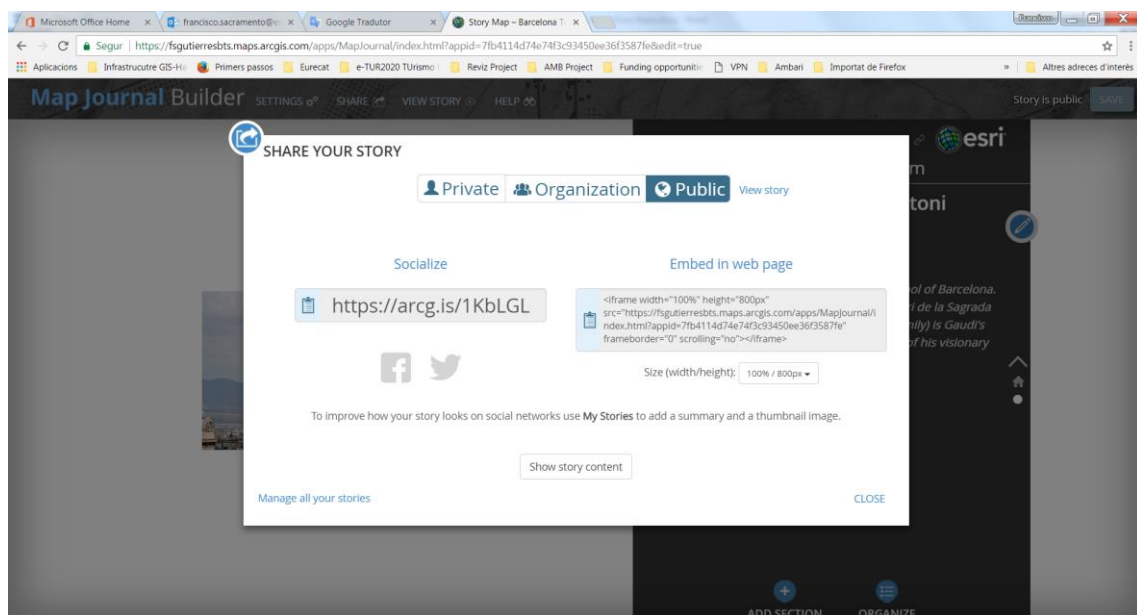

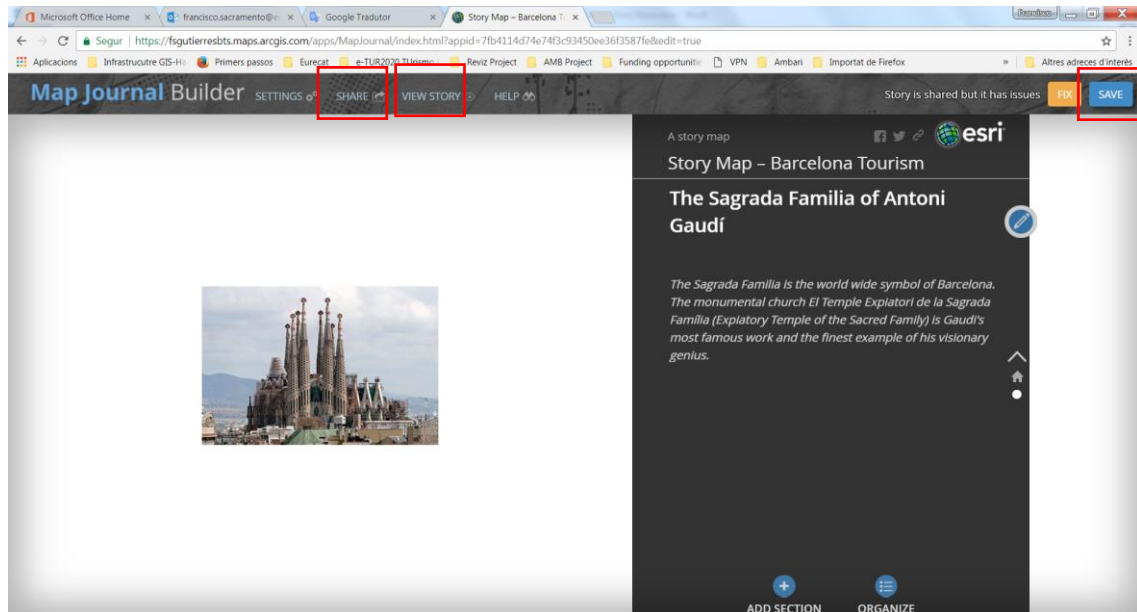

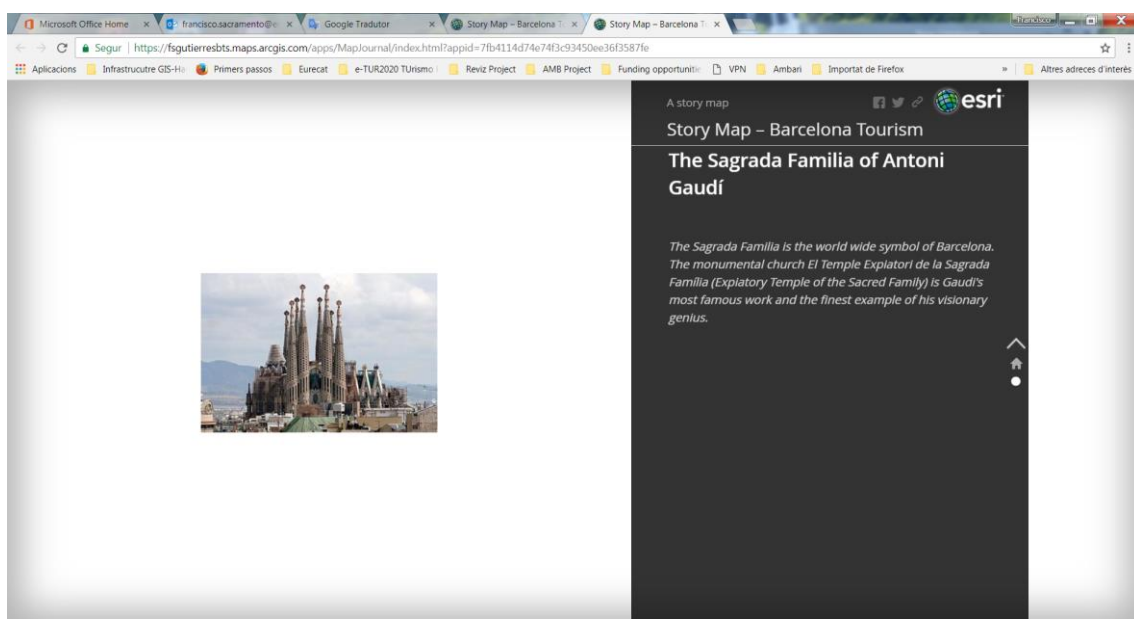

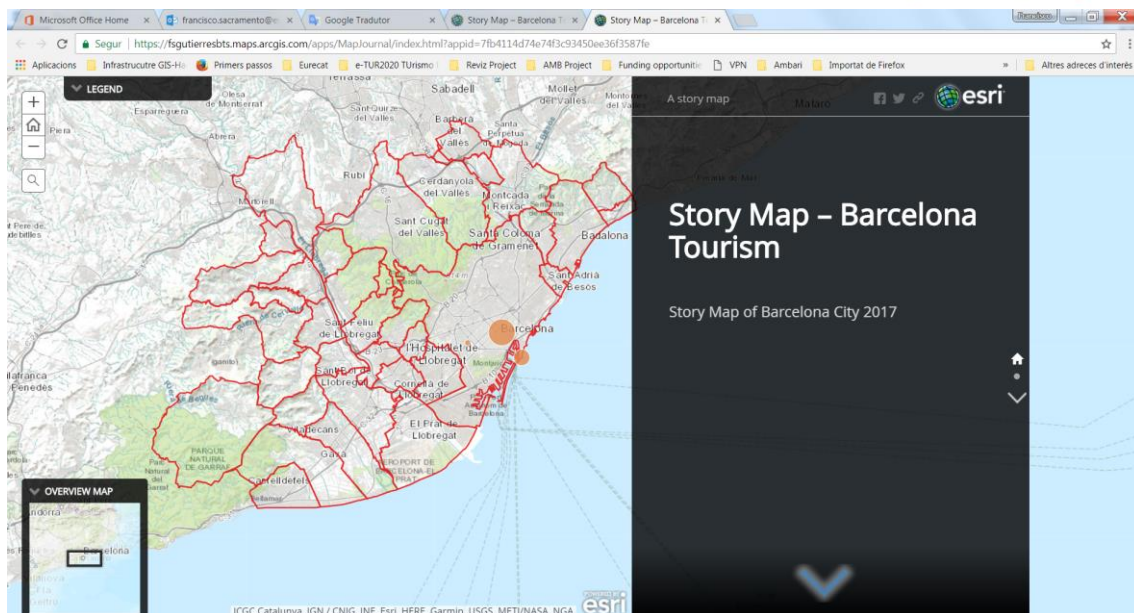

12. In Step 2 insert the following texts:

13. “The Sagrada Família is the world wide symbol of Barcelona. The monumental church El Temple Expiatori de la Sagrada Família (Expiatory Temple of the Sacred Family) is Gaudí's most famous work and the finest example of his visionary genius.”.

14. Click on “Save”, “Share” and “View Story”.

Good work!
